

EV CHARGING

LEVEL 2 + DC FAST CHARGING

Powering commercial, fleet and public charging applications with scalable EV charging solutions

DC FAST CHARGING PORTFOLIO

Scale Charging Power To The Application

The Tellus Power Green Level 3 family delivers scalable DC fast-charging solutions for commercial, fleet, and public charging applications. Available across multiple power levels with CCS1 and NACS connector configurations, the platform provides flexible high-speed charging options.

- 30 kW Wall Mount
- 180kW HPC Family
- 200kW HPC Family
- 240kW HPC Family
- 300kW HPC Family
- 360kW HPC Family
- 1.2mW Distributed

DC FAST CHARGING PORTFOLIO

Support The Charger Beyond The Hardware

The Alpitronic HYC400 is a scalable DC fast-charging platform available in 100kW, 200kW, 300kW, and 400kW configurations. The HYC400 family supports dual-connector configurations with CCS1, NACS, or a combination of both, making it well suited for commercial, fleet, and public fast-charging applications.

- HYC400-1 100kW
- HYC400-2 200kW
- HYC400-3 300kW
- HYC400-4 400kW

ACCESSORIES

Pedestals, Cable Management, Bollards & More...

- Single and Dual charger Pedestals
- Bollards and Wallards
- Wall Mount Cable Management

Charging Solutions For The Road Ahead

LEVEL 2 + DC FAST CHARGING

A flexible portfolio spanning Level 2 AC charging & high-power DC fast charging for commercial, fleet & public charging applications.

BUILD THE RIGHT CHARGING MIX

- ▶ Level 2 options for destination and workplace charging
- ▶ DC fast charging for higher-throughput locations
- ▶ Connector configurations available across select models
- ▶ Network and service options for connected deployments

Level 2 AC Charging

48A & 80A Chargers

FR-482E1DRNAK

48A Level 2 AC charger

- 48A Level 2 Single Port AC charger
- 21 ft (6.4 m) cable
- 208V or 240VAC
- Wi-Fi / 4G / Ethernet / mesh networking
- J1772 connector

FR-802E1DRNAK

80A Level 2 AC charger

- 80A Level 2 Single Port AC charger
- 25 ft (7.6 m) cable
- 208V or 240VAC
- Wi-Fi / 4G / Ethernet / mesh networking
- J1772 connector

Level 2 AC Charging

100A Dual Port Wall Mounted Charger

TEP-EVVA-80A

100A Level 2 AC Charger

- 100A per port Level 2 Dual Port AC charger
- 16 ft (4.88m) cable with optional 24 ft (7.3m)
- Wall mount form factor
- 208V or 240VAC
- J1772 Dual connectors
- Wi-Fi / 4G / Ethernet

Connected Charging

Network, Service & Support

The EVMax charger portfolio supports connected charging software and service solutions for both Level 2 and DC fast-charging deployments, with options for fleet and non-fleet applications. Our chargers are CMS-agnostic, providing customers the flexibility to integrate with compatible third-party charging management systems while selecting the software platform that best fits their operational needs. MaxLite has partnered with Flipturn as our recommended CMS provider.

Through our trusted partners, MaxLite offers comprehensive support programs, including Service Level Agreements (SLAs), Extended Warranties, and Preventative Maintenance Agreements to help maximize charger uptime, reliability, and long-term performance.
